Andreas Buff: Electronic Sound Design on Track 6

Take Time Out, **Ornah-Mental's** third full-flavour, full-time album (58 minutes!) is less affected by oriental music than its forerunners. This time, mediterranean electro-acoustic sound is in the foreground, which comes along at one time Flamenco-style (Elevando), at others jazzy-forceful (Visions Of Paradise) or just plain funky (Take Me To The Beach). Another new feature in **ORNAH-MENTAL's** unique soundscape is, that in some pieces the vocal part plays a more dominant role, recognisable in two (of twelve) titles with thought-provoking lyrics in German language.

This way creator and mastermind **Dirk Schlömer** seems to pay tribute to his past as a member in legendary German rockband **Ton Steine Scherben** with this project.

Unlike the last album "**Testimony**" the tracks on "**Take Time Out**" have come out to be more compact and forceful, but there is still a sense of that special exquisitely performed smoothness that **ORNAH-MENTAL** is widely known and admired for.

Slowing the music down to new heights of deceleration – that's an audible watermark.

Take Time Out! – Summer may come.
