Excursions

(gterma026)

- Import -

VÖ: 14.06.2013

Veteran cosmic travellers Dirk Schlömer and Carsten Agthe look back on journeys past and present, in preparing for the excursions of tomorrow. Music made for drifting out of consciousness into the higher understanding based on enlightenment and revelation. Expect a mix of instrumentation from past and present. Album comes in jewelcase with 16-page booklet.

Excursions to the outside
Excursions to the waves
Excursions to the inside
Excursions towards the flame
Excursions to the body
Excursions to the mind
Excursions to the spheres
And love is what we find
